MURDER IN THE BIG TOP

A retirement home is a place where people go to live out their twilight years, rest from years of hard work, and resent their children for never visiting. The Big Top ("Where We Care for Carnies") is a special rest home... one for ex-circus performers.

A new retiree tries to convince them that retirement has come too early, but the motley group of patients seems to be settled in their rut.

Will MURDER jar them to their senses?
And WHO IS the murderer?
Was it a serial killer, an accident, or what?
